To Whom It May Concern at the USO,

God's grace, peace & mercy be poured out into your life.

Hello from Baghdad, Iraq, where I as the JASG-C Chaplain, conduct the Religious Support for all of the International Zone (IZ).

I am writing this letter on behalf of Tenley Westbrook. It was my pleasure to have met Tenley on my way to Iraq at Pease International Airport in Portsmouth, Maine. At the airport she was meeting troops heading off to a war zone. She had been there all day, and she is there many times late into the night. She is dedicated to making military know there are people who care about them going into a War Theater and coming home. But her concern and support doesn't stop at the gates of the airport. She has spent hundreds of hours writing our military members letters and e-mails, packing boxes and working to encourage them through her music. With each song she pours her heart and calls on everybody to see the sacrifices made by our military personnel. Her desire is to honor the dedication and devotion of our sailors, soldiers, airmen and marines by holding them high in her music and sharing it with the world.

I can't encourage you enough to give Tenley an opportunity to be a part of the USO and entertain our troops. Her commitment and enthusiasm are unmatched when it comes to serving those who serve for the freedoms we so enjoy.
